FOR IMMEDIATE RELEASE

RBC TECHNOLOGIES TO RELOCATE IN THE SCIENCE PARK AT RESEARCH VALLEY

BRYAN, TEXAS, October 19, 2009 — RBC Technologies announced today that it has entered into a lease agreement for space at The Science Park at Research Valley, in College Station, Texas. The company is expected to move to the new space in early 2010. In the interim the company has taken temporary office space in FIBERTOWN located in the historic district of downtown Bryan, Texas.

Lynntech, a scientific research and development company focused on water, energy and health innovations, is developing The Science Park at Research Valley and will be its anchor tenant. Additional technology development companies are expected to lease space in the building.

“We are excited about the opportunity to be a part of the new Science Park,” said Dr. Lawrence Tinker, president of RBC. “The new space will provide more modern operating facilities for RBC, in line with our plans to grow our technology development and licensing activities.”

RBC Technologies is a privately owned technology development company engaged in the development of technologies related to portable energy systems. The company has been located in the Brazos Valley for twenty years. RBC has developed a portfolio of technologies related to batteries and chemical based heater systems. For more information about RBC and its technologies, including licensing opportunities, contact RBC Technologies at 979-260-1120, or on the web at www.rbctx.com.

Note: This release contains statements which, to the extent that they are not recitations of historical fact, may constitute "forward looking statements" within the meaning of applicable federal securities laws and are based on current expectations and assumptions. These expectations and assumptions are subject to a number of risks and uncertainties, which could cause actual results to differ materially from those anticipated, which include but are not limited to the following: ability of RBC Technologies to achieve its development goals, implement its strategy, license or commercialize its technologies, or to protect its proprietary rights to its technologies, the development of competing technologies, demand for and acceptance of RBC Technologies' products in the marketplace, ability of RBC Technologies to raise additional funds and other factors affecting RBC Technologies' business that are beyond their control. All forward looking statements contained in this summary are intended to be subject to the safe harbor protection provided by applicable federal securities laws.
